

Supplementary Application Form for On-site Storage

EPSOM SPRING GULLY RECYCLED WATER PROJECT - USE FROM STANDPIPES

This application should be completed only by customers who have completed the End User Application and ticked the box indicating that recycled water will be stored on site.

Complete a separate form for each site at which recycled water will be stored.

Applicant Details:

Company Name: _____

Name of Site: _____

Address of Site: _____

Method of Storage:

How will the recycled water be stored?

- Provide the following information:
- Type of storage (e.g. tank, dam)
- If the intended storage site is an earthen dam, describe the dam's lining
- Describe public access to the storage (e.g. private property, fenced)
- How long do you expect the water to be stored before use?

Signage Requirements

- Any storage tank used for recycled water must have an appropriate sign affixed to the front of the tank.
- Any storage dam used for recycled water must have appropriate signs installed at the site of the storage.

Tick to indicate you agree to comply with the signage requirements as listed above.

Management of Cross Connections

- All pipework/hoses supplied from the storage must be physically disconnected from the drinking water system and a 300 mm separation maintained to eliminate the risk of contaminating the drinking water supply.
- Customer must obtain a certificate of compliance from a licensed plumber indicating that an inspection/audit and testing has been undertaken to confirm that no cross connections are in place.

Tick to indicate you agree to avoid cross connections with the drinking water system as described above.

Supplementary Application Form for On-site Storage

EPSOM SPRING GULLY RECYCLED WATER PROJECT - USE FROM STANDPIPES

Note: For any permanent or long term storage and use of recycled water on site (such as for a commercial car wash facility), it may be necessary for the Customer / Applicant to develop an appropriate Customer Site Management Plan (CSMP) equivalent to that required for Public Open Spaces Users. Please contact the Recycled Water Officer at Coliban Water for further information.
