

MARONG

ALTERNATE CALDER HIGHWAY

General Notes for Standpipe Usage

1. Drivers need to ensure they are aware of their vehicle/trailer's legal rated carrying capacity.
2. Vehicles must not leave the site overloaded.
3. When loading tanks ensure that you do not put yourself at risk by climbing in unsafe areas.

Site Specific Notes

1. If there is no room to park in the yellow queuing area, vehicles need to leave the site and return when there is sufficient room to queue safely.

2. Once loaded, vehicles should avoid turning out and heading straight for Marong, as fully loaded vehicles cannot turn and accelerate quickly enough. Drivers need to consider turning out to the left and taking an alternative route.

3. When leaving the site all vehicles will move slowly – drivers need to take extra care in avoiding a collision with approaching traffic.

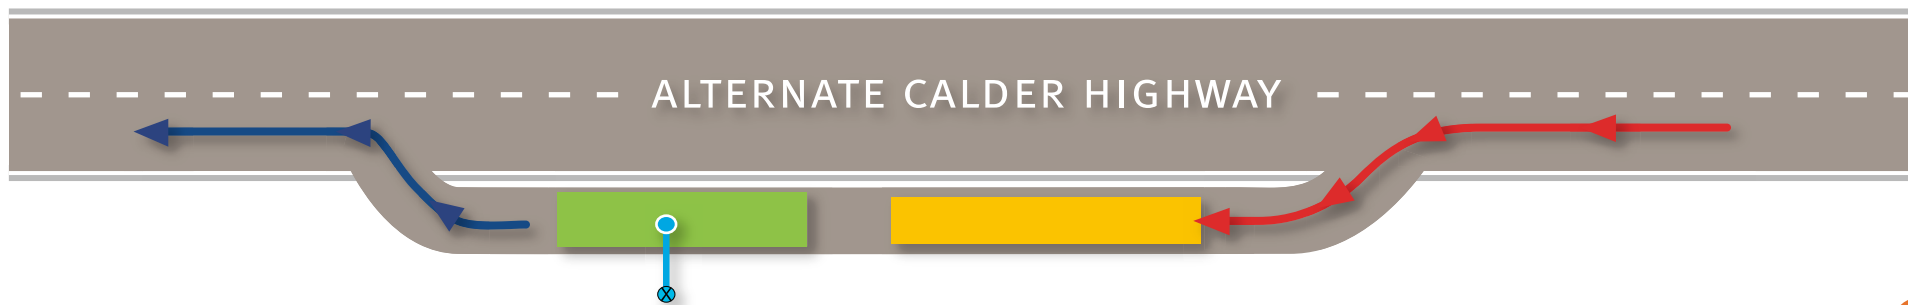

Note: This site is owned and controlled by Vic Roads and, at times, may be closed.
