

Under the requirements of water restrictions, a customer wanting to fill a new or existing pool or spa with a capacity of 2000 litres or more is required to submit a Water Conservation Plan to Coliban Water for approval. The Water Conservation Plan should set out proposed water savings that will be achieved on an annual basis to off-set the volume of water required to initially fill the pool.

Account Number:
Customer details:
Name:
Address:

Address (where pool is located if different from above)

Contact Numbers:

Notes

1. As a demonstration of the compliance with your Water Conservation Plan, please provide either:
 - A copy of receipts of products purchased or
 - Plumbing Industry Commission (PIC) Certificate of Compliance.
2. If you have previously fitted the water saving devices listed, your application may still be approved. Please indicate in each section those initiatives that you have completed previously.
3. The savings shown in the following tables are indicative only and provide an approximate savings per year.
4. Coliban Water reserves the right to undertake random audits of compliance with your Water Conservation Plan.

Bathroom Savings:

Install or replace existing shower roses with a flow restrictor or a Water Efficiency Labelling and Standards Scheme (WELS) 3 star rated shower rose. For further information visit www.savewater.com.au

<i>People in household</i>	<i>Shower 1: Shower-head savings</i>	<i>Shower 2: Shower-head savings</i>
