

*Goulburn supply system consists of: Rochester, Lockington, Dingee, Mitiamo, Pyramid Hill, Macorna, Mysia and Boort.*

All of our supply systems have different sources of water and supply constraints. Please ensure you read the update relevant to your town.

We welcome your feedback on these updates to ensure we are providing information that is relevant and useful. Send your suggestions and feedback to our postal address: 37-45 Bridge Street, Bendigo 3550 or e-mail to: [publicaffairs@coliban.com.au](mailto:publicaffairs@coliban.com.au)

## What we need for customer supply

| Residential customers | Business and industry | Operational water** | Total (Megalitres) |
|-----------------------|-----------------------|---------------------|--------------------|
| 450ML                 | 700ML                 | 350ML               | <b>1500ML</b>      |

Water needs for 12 months based on Stage 4 water restrictions.

For all current water restriction levels refer to - [www.coliban.com.au](http://www.coliban.com.au)

\*\* Operational water includes all losses eg. evaporation, system losses, seepage, treatment process losses.

## What we currently have

| Goulburn bulk water entitlement | Carry over water from last season | Temporary water purchased | Urban trade water | Total (Megalitres) |
|---------------------------------|-----------------------------------|---------------------------|-------------------|--------------------|
| 2,420ML                         | 0ML                               | 0ML                       | 3ML               | <b>2,423ML</b>     |

## Additional water information

### Bulk entitlement

| Goulburn annual bulk entitlement volume | Current allocation | Refer to Goulburn-Murray Water for latest allocation announcements |
|---|--------------------|--|
| 2,420ML                                 | 100%               |  |

Goulburn-Murray Water announced a 100% Bulk Entitlement allocation in the Goulburn system on the 1 November 2008, no further allocation will be made in 2008/09.

## Water restrictions outlook

| Water Restriction outlook |         |         |
|---------------------------|---------|---------|
|                           | August  | October |
| <b>Wet</b>                | Stage 2 | Stage 2 |
| <b>Average</b>            | Stage 2 | Stage 2 |
| <b>Dry</b>                | Stage 3 | Stage 3 |

These outlooks are based on allocation predictions from Goulburn-Murray Water.

Wet            Inflow conditions that have 1 in 10 chance of being exceeded  
 Average      Inflow conditions that have 5 in 10 chance of being exceeded  
 Dry            Inflow conditions that have 9 in 10 chance of being exceeded

## Consumption - actual versus forecast

The graph below indicates the actual demand in the Goulburn system compared with the predicted demand for Stages 2 & 3.

Goulburn monthly actual demand for May was just less than the forecast demand.

Total consumption to date for 2008/09 is 1474ML which is 248ML less than the forecast demand.
